

Backlink Audit: Overview

Project name: heydrew.com

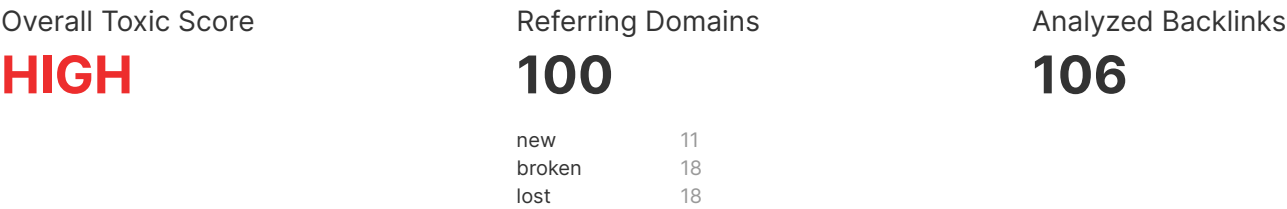

- An analysis of your website's backlink profile shows a high overall toxic score, indicating that a large number of links pointing to your site are from potentially low-quality or harmful sources.
- The audit identified 106 links coming from 100 different websites. Of these websites, 75% (75 total) are classified as toxic.
- The vast majority of links use your brand name as the clickable text. Specifically, 97 out of 106 links (over 91%) use "heydrew.com" as the link text.
- A small number of links use text that appears unnatural and spam-like, which contributes to the high toxic score.

This report provides a snapshot of the current backlink profile. A more detailed analysis of trends will require ongoing monitoring.
