

Site Audit: Overview

heydrew.com

- The website's overall technical health score is 84%, and its AI Search Health score is 83%, with no change noted for either metric in this period.
- An analysis of 54 pages on the site found that only 2 pages are completely healthy and free of issues.
- A significant portion of the website, 29 pages (over 53%), are currently blocked, which may prevent search engines from properly viewing their content.
- The audit identified 10 major errors and 52 less critical warnings across the site that require attention.
- The most common issues found include pages with duplicate titles or descriptions, pages missing descriptions, and at least one page that appears to be broken or cannot be found.

This report provides a snapshot of current activity. Deeper trend analysis will become more reliable with a longer data history.
